Mr. Alex Valderrey  
Certification Manager  
Aerospace Technologies Group, Inc.  
2009 Corporate Drive  
Boynton Beach, Florida 33426

Reference: STC No. ST02474AT

Dear Mr. Valderrey:

This letter responds to your request to amend the Referenced Supplemental Type Certificate (STC) to add the Dassault Aviation Model Falcon 900. You have provided the data required to show compliance with the applicable certification regulations. We therefore enclose STC ST02474AT amended to include the installation of passenger cabin electrically powered window shades in Dassault Falcon Model 900 aircraft.

This STC is official Federal Aviation Administration (FAA) approval of your modification and may be used to authorize identical modifications on other aircraft of the same model, subject to the limitations noted on the certificate. It may be transferred or otherwise made available to another party by means of a licensee arrangement in accordance with Federal Aviation Regulation (FAR) 21.47. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. You are required to advise this office within 30 days after the transfer when you transfer or grant licensee rights to the STC in order that we may take the necessary recording or reissuance action.

As recipient of this approval, except as provided in FAR 21.3(d), you are required to report any failure, malfunction, or defect in any product or part manufactured by you that you have determined has resulted or could result in any of the occurrences listed in FAR 21.3(c). The report should be communicated initially by telephone to the Manager, Atlanta Aircraft Certification Office, telephone number (770)-703-6035, within 24 hours after it has been determined that the failure has occurred. In addition, written notification to the Certification Office, at the above address is required. FAA Form 8010-4 (Malfunction or Defect Report) or any other appropriate format is acceptable in transmitting the required details.

If you plan to manufacture replacement or modification parts for sale in conformance with approved data listed on the Certificate, you are required to comply with FAR 21.303. A Parts Manufacturer Approval (PMA) may be issued under the provisions of FAR 21.303(d) when you submit a statement certifying you have established the fabrication inspection system as required by FAR 21.303(h). The identification requirements for parts produced under a PMA are in FAR 45.15. Your statement may be in letter form, with reference to STC ST02474AT, and should be addressed to the Orlando Manufacturing Inspection District Office, Citadel International III Bldg., Suite 405, 5950 Hazeltine Dr., Orlando, Florida 32822.

Sincerely,

*For* Eugene E. Evans  
Airframe Branch Manager, ACE-117A  
Atlanta Aircraft Certification Office
